

SPECIAL POLICE  
OFFICER'S SLAYER  
CAPTURED SUNDAY

Negro Nabbed In Alliance Is  
Returned To Jail In  
Wellsville.

CAPTORS EVADE  
CROWDS AT JAIL

Held Up Poker Game Then  
Killed Wellsville's  
Volunteer Cop.

Wellsville, Feb. 26.—Edward Johnson, South Carolina negro, is in Wellsville's jail facing special grand jury action on a charge of first degree murder following the death yesterday of W. T. Hyatt, 53, Wellsville police volunteer, into whose body he had fired four bullets.

Johnson is the negro, according to reports, who a week ago held up players during a poker game in lower Wellsville, escaping with all the money in the place. Last Saturday, it was learned, he had returned to Wellsville from McKeesport, Pa. Both regular and volunteer policemen were told to watch for him. Hyatt, who had taken his appointed post at Borings crossing, never guessed that he had found his man until the latter had pumped two bullets into him.

Evidently he fired twice after he fell, his assailant returning the fire and lodging two more bullets. When Hyatt was picked up by railroad men who were in an engine nearby, he was unconscious, but he recovered quickly and remained so during the entire trip to the East Liverpool hospital, during the "ordeal attendant upon the operation and for a short time afterward. At 1 o'clock yesterday afternoon he died.

Caught In Alliance  
Meanwhile the slayer had escaped. Every reserve among the regular police and volunteers was called in. Residents not affiliated with either force joined the man hunt. Alarms were sent out. Early yesterday morning word came that an Alliance railroad detective had picked up a negro answering Johnson's description—had taken him from a freight train without struggle.

Confirmation having been obtained, Patrolman H. E. Castberry hurried to Alliance and took his man into custody, brought him as far as Salem by street car and there transferred him to an automobile loaded by police and deputies from Wellsville.

Outwitting a huge crowd which had gathered about the city hall, the policemen smuggled the negro into jail.

With him are four material witnesses who, the police said last night will be held until Johnson is taken before the grand jury. Prosecutor Jesse Hanley added that he believed the last grand jury, which was hastily summoned for a day's grist, could be summoned again to deal with the South Carolina negro.

Hyatt was foreman of the car inspectors of the Pennsylvania railroad. He had only been a volunteer policeman a few weeks.

The negro, who is about 25 years old, said he is the son of a preacher, living at Greer, S. C.

GARY AND ITALIAN  
PREMIER CONFER

Discuss Plan For American's  
Economic Condition..

Rome, Feb. 26.—E. H. Gary, chairman of the board of directors of the United States Steel corporation, held a conference here today with Premier Benito Mussolini, regarding possible participation here by American capital in the economic restoration of Italy. Premier Mussolini is hopeful of persuading American financiers and industrialists to assist Italy in building up her factories and her foreign trade.

Engineers representing the United States Steel corporation are looking into Italian projects for public works, including new construction in the Naples harbor.

Mussolini has told his colleagues that Italy needs more foreign commerce and more factories. He is anxious to increase the steel and iron industries but is hampered by lack of coal and ore.

It is understood in official circles that Mussolini's recent warning to the Italian nation not to expect cancellation of war debts was intended chiefly for its good effect in the United States.

FIVE BEING HELD  
AS SUSPECTS IN  
ROBBERY OF BANK

Two Men Under Arrest Are  
Heavily Armed; Victim  
Is In Hospital.

Stuebenville, Feb. 26.—Two suspects in the attempted holdup of the Peoples National bank at Mount Pleasant near here, night by Sheriff Edward Lucas at Piney Fork, a mining town near Mt. Pleasant. The men held in the county jail here are Dominic Mastracci, 30, and Luigi Gorcutti, 26, both minors.

Word from Mount Gilead, Morrow county, informed local authorities that three others have been picked up there on suspicion making in all five suspects held for the attempted holdup.

The arrest of the two Piney Fork men by Sheriff Lucas was made after information was furnished about two men acting suspiciously.

They were heavily armed, a gun and stiletto were found on each man searched following arrest and last night three more guns were found between the mattress of a bed in the cell at Smithfield where the men were incarcerated before being brought to Stuebenville. Cashier E. V. Jones has partially identified Mastracci as one of the bandits.

The price of Assistant Cashier Harry E. Price, who is confined in a Wheeling hospital, was reported slightly changed for the better this morning although he is still in a critical condition.

The suspects arrested at Mt. Gilead gave their names as Mr. and Mrs. Earl Connor and Raymond Payne. Mt. Gilead authorities heard of the attempted holdup by wireless, the news being broadcasted together with a description of the bandits.

Haynes Encouraged  
By Dry Sentiment

Columbus, Feb. 26.—Asserting that crystallization of public sentiment in favor of more rigid dry law enforcement everywhere is one of the most encouraging developments of the past three-year period of national prohibition enforcement, Federal Prohibition Commissioner K. A. Haynes, Washington, today addressed federal and state prohibition enforcement officials at the close of a noon day luncheon at Hotel Deshler.

Ministers Pass Chaplin Film  
Despite C. E. Protests

Columbus, Feb. 26.—Ten Columbus Protestant ministers rendered the final verdict which permitted Charley Chaplin's new film comedy, "The Pilgrim," to be presented in Ohio.

Letters of protest came by the hundreds to Education Director Vernon M. Riegel when the picture was first released and advertised, protesting against letting the film be shown in the state.

Riegel viewed the picture himself instead of leaving the censoring to the two assistant censors who now comprise the state board. He saw nothing objectionable in it. The protests continued to pour in, one being sent by the Columbiana County Christian Endeavor union.

Before announcing his approval of the film, and in order to silence the objectors, Riegel called in as a jury 19 prominent ministers of Columbus. They viewed the film. Their decision was unanimous. They found nothing objectionable and told Riegel they saw no reason why the picture should be barred from Ohio.

Objections were raised because, in the picture, Chaplin, an escaped convict, does the clothes of a minister he finds bathing in a creek, represents himself later as a preacher and provides most of the comedy while attempting to live up to his assumed role.

HARDING TO TAKE  
SHIP AND WORLD  
COURT TO PEOPLE

Issues Will Be Put Up To  
People If Congress  
Fails To Act.

SENATE LEADERS  
EXPRESS NO HOPE

Proposes World Court Of  
Justice Under League  
Of Nations.

Washington, Feb. 26.—President Harding plans to take two issues "to the people" between March and December if the now dying 67th congress fails to settle them.

One is the ship subsidy program, now water-logged and about to sink because the senate insists upon talking, not voting upon it.

The other is the proposition that the United States shall adhere to the world court of justice set up under the league of nations, upon which it appeared unlikely today that any definite action can be taken before the expiration of the present congress six days hence.

A canvass of today's editorial opinion of all shades today revealed the preponderant belief among leaders on both sides of the chamber that neither of these measures can get any where before March 4.

President Harding was fully cognizant of the legislative snarl when he transmitted his special message to the senate on Saturday, asking its "advice and consent" for the United States to participate in The Hague court, administration spokesmen said today. Having been in the senate himself, and opposed to the league, the president realized that protracted debate would be necessary before the sanction sought could be secured.

Senate Court Unwise.  
He, nevertheless, decided to get the proposition before the country, so that public opinion would have ample time to crystallize during the months that congress would be at home and the new congress coming in would be prepared to cast a decisive vote one way or the other.

President Harding requested the senate to sanction American participation in the permanent court of international justice organized by the league of nations only after inquiry had developed the futility of America's trying to promote a separate court, entirely dissociated from the league, it was stated officially here today.

Secretary of State Hughes believes the United States must either adhere to the league's court under the reservation he proposed or a court in the position of abandoning the settlement of international disputes by judicial methods so long advocated by American statesmen.

"It is now possible for the United States to organize a new court," said administration spokesmen today, "for all of the principal nations of the world subscribed to this one."

Police Raid Nets Big Whiskey  
Supply, Stills And Two Men

Two Copper Stills And 150 Gallons Boozie  
Seized—Mayor Fines Lutsch \$400, Roth \$200 On Transportation Charge.

Salem police smashed what is believed to be the largest whiskey ring in this part of the county Sunday afternoon, when they arrested two men and confiscated more than 150 gallons of whiskey, 350 gallons of mash and two 25-gallon copper stills.

Martin Lutsch, living near the Georgetown rd, was arrested by a squad of Salem police headed by Chief of Police T. W. Thompson and including Officers Gray, Bryn and McIlvane, shortly after 3 p. m. Sunday on a charge of manufacturing and possessing liquor illegally. The stills, mash and whiskey were found in the cellar of the Lutsch home.

Two of the most modern copper stills, each half filled with whiskey were found, in addition to numerous jugs and barrels of whiskey and several barrels of mash, each holding approximately 50 gallons.

Shortly before visiting the Lutsch home, Chief Thompson and Officer McIlvane arrested John Roth of 26 Newarden st on a charge of transporting liquor.

Trap Laid For Roth  
The arrest of Roth followed a cleverly laid trap by the Salem officers. Roth has been under suspicion for some time and Chief Thompson and McIlvane drove out Newarden st Sunday afternoon to await Roth, who they believed was enroute into Salem with a quantity of booze.

Sighting his machine coming towards the city, the officers swung their car across the roadway, completely blocking any chance of driving past.

Quick work on the part of the officers prevented Roth from destroying any evidence as he had broken a large jug containing liquor when the officers reached his car.

SWANEY EXPLAINS  
WILLITE PROCESS;  
TO JOIN COMPANY

Tells Kiwanians Engineer  
Will Investigate Two  
Salem Streets.

The advantages of tempering asphalt with copper sulphate, commonly known as blue vitrol, at a temperature of 360 degrees Fahrenheit, in improving and building roads, was explained Monday noon before members of the Salem Kiwanis club by E. M. Swaney, retired manager of the Ohio Bell Telephone company for Columbiana county.

This process known by the trade name of "Willite" is now being used by state highway departments in several states throughout the country, according to Mr. Swaney who gave a detailed history of the discovery of the process and of its use in numerous cities.

Urging that cities and towns planning road building or resurfacing investigate this process, Mr. Swaney declared that expert engineers will be brought to Salem by the Willite company, with no expense to the city, to investigate the possibilities in resurfacing Lincoln ave and East High st both of which were paved with concrete blocks, and which are claimed to be deteriorating from the bottom.

Will Keep Moisture Out  
It is the claim of the Willite company that if their process is used on Lincoln ave this deterioration will be stopped as it is due primarily to moisture and that Willite surfacing will prevent moisture from reaching the concrete block base.

Mr. Swaney in answer to a question declared that it would not cost the city of Salem a cent to have their engineer, service director and any other responsible men, sent out to investigate Willite roads now in use in other cities such as Kingston, N. Y., and Jonestown, Pa.

The cost of using Willite will not exceed about \$2.50 per square yard according to Mr. Swaney.

The speaker announced his affiliation with the Willite company at the meeting. He is retiring from Bell Telephone service after 37 years of service with the company.

Trapped By Fire,  
Woman Hurls Two  
Babes Out Window

New York, Feb. 26.—Trapped in her apartment on the third floor of a burning West Side tenement early today while flames roared through the room, cutting off every means of exit, Mrs. John Healy threw her twin babies from a window and jumped after them.

The mother and one baby died instantly. The other child is not expected to live.

Healy, who followed his wife in her leap, is suffering from internal injuries which probably will prove fatal.

The flames walled off tenants on upper floors from escape.

The windows were crowded with screaming people.

Ladders were run up and the tenants removed to safety. Two firemen were painfully burned in rescue work.

Hundreds Of Greek Refugees  
Dying Daily Of Typhus

Constantinople, Feb. 25.—Scores of Greeks, Christians and Ottoman refugees in the detention camp at Scutari are dying daily in the plagues of typhus and smallpox which are ravaging the fugitives. Two hundred and ninety-seven refugees died in this camp within the past seven days.

All of the fugitives gathered at Scutari were transported from Trebizond where they had been concentrated from the interior of Anatolia.

According to the Near East relief administration 20,000 refugees are in the camp living in filthy stables and barracks.

Gen. Harrington, commander of the British troops in Constantinople sent a party to investigate. The investigators reported that conditions were fully as bad as had been pictured.

The Near East relief administration is rushing medicines and food stuffs.

FERREN IN CLASH  
WITH COUNTY DADS  
OVER BOOZE CASES

Palestine Mayor Objects To  
Release Of Men, Issues Threat.

When Mayor A. W. Ferren, East Palestine, went before the county commissioners Monday afternoon at Lisbon and told them not to release any more prisoners on parole, Commissioners Berg and McNicol are alleged to have told him that they would continue to release prisoners on parole as they have done in the past and not put the county in debt unnecessarily by keeping these prisoners.

On leaving the office Mayor Ferren warned the commissioners that he would take action against them, if they continued their practice, it is said.

During the conflict the arguments became very heated and it is alleged that Mayor Ferren hurled a desk at Commissioner Berg and accused Commissioner McNicol of "living in a hell hole," and said that he had enough evidence against McNicol to "create a scandal." It is reported that the commissioners told Ferren "to go ahead with his liquor cases if he had the evidence."

Ferren told the commissioners he was backed by over 1,000 "white men" and the commissioners told Ferren that they were "white men."

The commissioners' office was crowded with spectators, including county officials.

Young People No  
Worse Today Than  
Forty Years Ago

Need To Get Viewpoint Of  
Boys And Girls Says  
Grange Lecturer.

Boys and girls of today are no worse than those of 40 years ago in the opinion of State Grange Lecturer G. R. Lewis of Hancock county, expressed Saturday at the meeting of Mahoning county Pomona grange in the North Lima grange hall.

Boys of 40 years ago smoked and the girls would run away to a dance when they were forbidden, Lewis asserted. He urged that parents get the viewpoint of the girls and boys of today and attract their interest to grange work, so that other influences will not lead them astray.

The state lecturer also outlined the work for the coming year, emphasizing particularly the effort to increase membership. He announced that the state grange degree team would come here in October to organize a class in the sixth degree so they could be given the seventh degree at the national convention in Pittsburgh in November. Columbiana, Mahoning and Trumbull county candidates probably would be included in this class.

Thirty-two candidates were obligated in the fifth degree during the morning session and after lunch a conference of masters and lecturers was held. A committee was appointed to arrange for a county picnic the last Saturday in July.

Music at the lecture hour in the afternoon included bagpipe selections by John McCullum, a song by the North Lima juvenile grange and selections by the North Lima grange orchestra. Miss Charlotte Stackerhouse of North Lima grange gave a reading. W. H. Matthews of Salem gave an address on "Mound Builders of Ohio."

## Developing Music

ANNOUNCEMENT of the trustees of the Juillard Musical foundation that more than \$10,000,000 will be available from the estate of the New York merchant of that name to carry out his plan for the advancement of music in the United States is a reminder that the wealthy men of America have been more generous in their support of the art than the public could justly expect them to be. In the aggregate the sums paid by business men to make up deficits at the end of seasons of operatic performances and symphony orchestra concerts, of which they were guarantors, doubtless have run into hundreds of thousands, if not millions of dollars. In fact, in its highest forms of expression music, under existing conditions, hardly would exist in America if philanthropists' contributions were withdrawn. Few of the symphony orchestras of the country are self-supporting, and the Metropolitan of New York is the only opera company that is on a paying basis. Harold McCormick has put a fortune into the maintenance of the Chicago opera.

If the United States were a poverty-stricken country, or one whose people were crude and uneducated, there would be some excuse for the situation. On the contrary this is the richest nation in the world; there is no other whose people can so well afford to pay for their music. That we are not lacking in appreciation of music is attested by the fact that every theater, every pretentious restaurant, maintains an orchestra, practically every church has an organ and a choir, nearly every home has a piano or a phonograph, every regiment in the army has a band, music is taught in the public schools, concerts are given in the public parks at the expense of the municipalities, and some cities employ organists to give free recitals. With music so fundamental an element in American life it would seem that the American people would be willing to foot the bills themselves for such projects as Mr. Juillard has provided for in his will, instead of shifting the burden to philanthropists. In Europe worthy musical enterprises are subsidized by the government, and there is not a city of more than 50,000 on the continent that does not have a season of grand opera. Australia, with a population considerably smaller than that of Pennsylvania, has a national conservatory of music, a state orchestra of 75 pieces, and a state chorus of 150 voices, which are maintained with the taxes paid by the people.

The art of the nation is one of its big assets, and there is no art which gives such satisfying returns as music. It soothes the restless, offers relief to pent up emotions and an outlet to the feelings. No mistake will be made in giving every possible encouragement to the development of the highest forms of music.

## REPORT SAYS Y-O LINE MAY BE SOLD

Some months ago it was reported that the Y. & O. railroad was contemplating the removal of its car barns, shops and terminal offices to Lisbon. Since that time industrial interests at Youngstown have been contemplating a purchase of the Y. & O. and the Y. & S.

Railroad men say that if the road is sold the shops will remain where they are, but if the deal falls through the program of removal to Lisbon will be carried out by the present owners. The reason for the removal as given out was the saving of time in car dispatching.

## HOME BUILDING BOOM IN LISBON

Lisbon, Feb. 26.—In an effort to keep up with the steady demand for homes in Lisbon, the Hinchliffe real estate company is busy preparing plans for ten new residences to be erected on the site of the old East End ball park. Herman Armstrong, former county engineer, is preparing the estimates and plans. Ground will be broken as soon as weather permits. This agency is also constructing three residences in East Chestnut st., completing six that have been under construction this winter.

Five new homes projected by private parties and real estate deals indicate that home building will be brisk at the county seat this spring and summer.

For the past two years the demand for homes here has been far in excess of the supply and every available apartment in the town is rented and large waiting list is ready to occupy any other apartment that are vacated.

With the sudden influx of workers, brought here largely on account of the large operations of the Seagr Coal company, the Central Mining Co., and the Miller Coal Stripping company Lisbon is experiencing a growth in population that will put it in the "city" class by the next census.

## The Best Cough Syrup is Home-made

Here's an easy way to cure it, and yet have the best cough remedy you ever tried.

You've probably heard of this well-known plan of making cough syrup at home. But have you ever used it? When you do, you will understand why thousands of families, the world over, feel that they could hardly keep homes without it. It's simple and cheap, but the way it takes hold of a cough will quickly earn it a permanent place in your home.

Into a pint bottle, pour 3¼ ounces of Pinex, then add plain granulated sugar syrup to fill up the pint. Or, if desired, use clarified molasses, honey, or corn syrup instead of sugar syrup. Either way, it tastes good, never spoils, and gives you a full pint of better cough remedy than you could buy ready-made for three times its cost.

It is really wonderful how quickly this home-made remedy conquers a cough—usually in 24 hours or less. It seems to penetrate through every air passage, loosens a dry, hoarse or tight cough, lifts the phlegm, breaks the membranes, and gives almost immediate relief. Splendid for throat tickle, hoarseness, croup, bronchitis and bronchial asthma.

Pinex is a highly concentrated compound of genuine Norway pine extract, and has been used for generations for throat and chest ailments.

To avoid disappointment, ask your druggist for "2¼ ounces of Pinex" with directions, and don't accept anything less. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Ft. Wayne, Ind.

## PENNSY SHORT CUT WOULD LINK LINES AT BAYARD, REPORT

Plan Would Route Chicago Trains Over C-P Road, Cut Off Alliance.

Alliance, Feb. 26. — Is Alliance to lose its prestige as a rail junction by losing one of the busiest branches of the Pennsylvania railroad now passing through the city? Farmers south of Louisville claim surveyors, said to be employed by the railroad, are routing the Fort Wayne tracks southwest of Alliance.

According to reports from Louisville plans are afoot to run the Fort Wayne tracks from a point west of the Superior Steel company's works at Louisville and connecting with the C. & P. branch at Bayard.

Under this plan, it is pointed out, the distance from Pittsburgh to Chicago will be shortened approximately 18 miles, offering a better time schedule for fast trains. The trains will then be routed over the new branch at Louisville, switched on the C. & P. tracks at Bayard, and go to Pittsburgh by the way of Wellsburg and East Liverpool.

Other activities of the company point toward this. Work of raising and surfacing the C. & P. tracks has been done to the tracks west of this junction point except what is required to keep the track in proper condition.

**New Right of Way**  
Extensive work has been in progress on the eastern part of the C. & P. division for the last year. More work is being planned, according to reports from points along the railroad. Surveyors have been inspecting land near Beaver Falls and it is said a new right of way has practically been outlined.

Between Bayard and East Liverpool a manual blocking system has been in use for trains. Blue prints have been made for installing an electric semaphore system between these points. Activities of the company in testing various equipment on that division indicate such a system will be installed shortly.

At the present time more traffic is being sent over the C. & P. division than at any time known by residents along the route or by employees. There is now a complete double-track system connecting Cleveland and Pittsburgh over this route. Much work will be necessary to get the track in condition to be used by fast trains. During this coming summer it is expected work will be continued between Bayard and Yellow Creek.

## A GLASS OF SALTS CLEARS PIMPLY SKIN

Undigested food delayed in the stomach decays, or rather ferments, the same as food left in the open air says a noted authority. He also tells us that indigestion is caused by Hyperacidity meaning there is an excess of hydrochloric acid in the stomach which prevents complete digestion and starts food fermentation. Thus everything eaten sours in the stomach much like cabbage sours in a can, forming acid fluids and gases which inflate the stomach like a toy balloon. Then we feel a heavy, lumpy misery in the chest; we belch up gas; we eructate sour food or have heartburn, flatulence, water-brash, or nausea.

He tells us to lay aside all digestive aids and instead get from any pharmacy four ounces of Jad Salts and take a tablespoonful in a glass of water before breakfast and drink it while it is effervescent, and furthermore, to continue this for a week, while relief often follows the first dose, is important to help neutralize the acidity, remove the gas-making mass, start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices.

Jad Salts is inexpensive and is made from the acid of grapes and lemon juice, combined with lithia and sodium phosphate. This harmless salt is used for many stomach disorders with excellent results.

CHRISTOPHER BRAMBLE, of Brooklyn, Retired Chief Quartermaster U. S. Navy, who says his determination to try Tanlac was the wisest decision he every made as the medicine completely restored his health.

Christopher Bramble, 733 Monroe st., Brooklyn, N. Y., Chief Quartermaster U. S. Navy, retired, is now an ardent champion of the merits of Tanlac. "I'll stand by Tanlac to the very last," declared Mr. Bramble, "for it has helped me back on my feet and I am feeling like a new man now. I had suffered from stomach trouble for two years and was in an awful run-down condition. My appetite went back on me and when I did eat a little something I would suffer pain and misery for hours. My nerves were all out of fix, I would lie awake tossing and rolling until almost day, and I felt weak and tired all the time. I had no energy to do anything and just felt any way but right. "Well, I just kept on losing weight and getting worse until I concluded to try Tanlac, and that was the wisest decision I ever made. It's the only medicine I ever saw that does all they say it will. I now eat three hearty meals a day and never feel a touch of indigestion, and my appetite was never better, even when I was a school boy. My sleep is sound and refreshing and I get up mornings feeling refreshed and fine. My weight has increased and I have been built up until I never felt better in my life. If anybody doubts this statement just let them see me." Tanlac is sold by all good druggists. Over 35-million bottles sold.

## SEARCH CREEKS FOR GIRL'S BODY

Girl, 6, Kidnaped, Brutally Assaulted And Thrown From Motor Car.

Philadelphia, Feb. 26.—The creeks and sewers of the congested northeast district of this city are today being searched by 300 police and many citizens in an effort to locate the body of six-year-old Lillian Gilmore, kidnaped, brutally assaulted, and thrown from a motor car late Saturday night.

Wylie F. Morgan, 39, who was identified as a suspect in the crime by Lillian's four-year-old sister, Dorothy, who was also abducted by the kidnapers, was subjected to a severe cross-questioning at detective headquarters early today but his answers were evasive.

Morgan, according to police, was arrested following a house to house canvass of the section where the crime occurred and was found to have blood-stained clothing in his room. Shortly after his arrest, Dorothy Gilmore identified him from among a group of 35 plain clothes policemen. Possibility that the missing child's body had been thrown into the Delaware river is seen in Dorothy's assertion that "the man threw Lillian on the ice." Fear of a lynching last night caused a special police guard armed with riot guns to be assigned to take Morgan to the detective bureau.

## W. J. BRYAN OPENS DRY PLANK FIGHT

Says Democrats Lost Last Election By Dodging This Issue.

Washington, Feb. 26.—William Jennings Bryan has laid the kegel of battle against efforts of the liquor interests to assume a wet plank in the Democratic platform of 1924. He believes American sentiment is overwhelmingly dry and that his party should name a dry for president and go before the nation pledged to enforce strictly the prohibition laws.

Mr. Bryan is here consulting Democratic leaders in a series of conferences, which have been increasing as the presidential campaign approaches.

W. Bourke Cockran, Democratic representative from New York, and other avowed wets from New York, New Jersey and Massachusetts, and other wet centers have announced their purpose to present a wet plank in the Democratic convention, and to urge the naming of a wet candidate. The dries in the party are rallying round Mr. Bryan, urging vigorous enforcement of prohibition laws now. Mr. Bryan said such enforcement would minimize the liquor question in the campaign.

**Wet Plank Unlikely**  
"No one can look far ahead in politics," he said, "for predictions are largely colored by one's own wishes and by environment. A wet living in New Jersey will tell you that both parties will adopt some kind of a bottle or keg for its party emblem and declare in favor of free and unlimited use of liquor. He sees wet."

Mr. Bryan added:  
A dry living in a dry territory is sure both parties will declare for strict enforcement of the law and against any weakening of the prohibition law. Being a dry and realizing that the American people have repeatedly given their opinion as favoring prohibition, I am sure that neither party would dare to adopt a wet plank, and I am hopeful both parties will adopt a dry plank.

The chief obstacle in our way is the fact that wet think of nothing else except liquor and they are willing to sacrifice everything to gain a point, while the dries believe the question is settled and they think on many public questions. They do not concentrate all their thoughts on this one question."

## WOMEN'S APPEALS HALT SURRENDER OF IRISH REBELS

Dublin, Feb. 26.—Women leaders among the Irish Republicans, led by Mary MacSwiney, have frustrated wide-spread surrender by irregulars in the County Cork area. It was reported today by the Free State commandant in the city of Cork.

County Cork has been the hot bed of rebellion against the Free State since the Dublin government was formed. It was there that Michael Collins was shot to death.

Word was received that many irregular soldiers were contemplating giving up their arms but this was followed by another dispatch saying that the women, urged on by Miss MacSwiney, were demanding that the men fight to the bitter end.

Free State headquarters at Bantry sent word that the irregulars in that district had been driven into the mountains where they are surrounded by Free State forces. The Republican leaders sent out word that they were willing to give up their arms.

So far no reply has been received to the appeal which Miss Mary MacSwiney sent to Pope Pius XI in Rome in behalf of her sister Annie who has been on hunger strike for 11 days. Mary asserted that Roman Catholic priests have refused to administer sacrament to her sister.

## Instructions To Aid You In Income Tax Reports

A head of a family is a person who supports and maintains in his own household one or more individuals closely related to him by blood, marriage or adoption and whose right to exercise family control and provide for these dependents is based upon some moral or legal obligation. Such relatives need not be under 18 years of age nor mentally or physically defective but must be without income sufficient to support him or her. Separate returns may be made by husband and wife or they may make a combined return. In case of husband and wife whose combined net income exceeds \$5,000, Form 1040 (not Form 1040-A) should be used for separate returns, even though the income on one or both returns is less than \$5,000. Contributions to religious, charitable and educational institutions, American Legion and women's auxiliary units of such post are allowable to an extent not in excess of 15 per cent of the taxpayer's net income. Gifts made directly to an individual are not deductible. Contributions for political campaign purposes are not deductible. Contributions to the Anti-Saloon League are not deductible. Contributions to the Knights of Columbus are not deductible. Contributions to both the Y. M. C. A. and Y. W. C. A. are deductible. The entire amount of interest received on tax free covenant bonds should be entered in the body of the return and the amount of income tax paid at the source should be deducted.

## Thin? Run-down? Sure Way to Get Right Weight

Increase Your Red-Blood-Cells. That's the Sure Way! S. S. S. Builds Blood-Cells; This Means Strength!

Do you know why insurance companies refuse to insure a great many men because they are under weight? Simply because to be under weight often proves

low fighting-power in the body. It often means you are minus nerve-power, minus red-cells in your blood, minus health, minus energy, minus vitality. It is serious to be minus, but the moment you increase the number of your red-blood-cells, you begin to become plus. That's why S. S. S., since 1826, has meant to thousands of underweight men and women, a plus in their strength. Hollow cheeks fill out. You stop being a calamity-brother. You inspire confidence. Your body fills to the point of power, your flesh becomes firmer, the age lines that come from thinness disappear. You look younger, firmer, happier, and you feel it, too, all over your body. More red-blood-cells! S. S. S. will build them. Ladies and gentlemen, a healthy, strong body doesn't make you look very important or pretty, does it? Take S. S. S. It contains only pure vegetable medicinal ingredients. S. S. S. is sold at all drug stores in two sizes. The larger size bottle is the more economical.

## GAS EXPLOSION INJURES WOMAN

East Liverpool, Feb. 26.—Damage estimated at approximately \$3,500, partially covered by insurance, resulted from a fire at the Harker Pottery company, along the River rd., and an explosion at the home of Mr. and Mrs. George Williams, St. George st. yesterday.

Mrs. Williams, who was just about to enter the back door of her home when the blast occurred, was hurled from her feet to a garage on the back of the lot by the force of the explosion. She suffered from a shock but her condition is not regarded as serious.

Mr. and Mrs. Williams had been absent from their home over Saturday evening and upon returning home about 6:15 o'clock last evening noticed gas fumes when they entered the door. Mr. Williams hurried to the street box to shut off the gas in the pipes and while thus engaged, the explosion occurred.

The fire at the Harker pottery at 5 a. m. yesterday is believed to have been started from an overheated gas stove in the warehouse.

The fire had made big headway when the firemen arrived but it was under control within a few minutes. It burned itself through the second floor of the warehouse to the floor below.

### Y—EOW GANG! MEMBER THE OLD BATTLE CRY?

"Powder River" Coming to the Grand Theater Thursday and Friday.

Y—cow Gang! "Member the old battle cry—"Powder River!" Let's Go! the whoop that put the fear into these Heinies when we were told to "Go get 'em." "Member the creepy feeling that ran up and down your spine when you were standing knee deep in slop, in those old front line trenches between 4 and 5 a. m., waiting for the word "Let's Go!" When one minute you were hot, and the next minute freezing, you went through your pockets to find a crumpled piece of hardtack to chew, to keep your teeth from chattering; then your thoughts wandered back to those birds, behind the lines snoring away and dreaming of home. Then your thoughts pictured the home folks, and you wondered whether you would ever see them again—well anyway we're here to fight, and you swore inwardly to yourself that you would "get" a dozen before they downed you. "Member wondering what time it was? and those minutes seem like hours, and hours, and how you were rearing to go "over," and show those Huns how to fight; then at last the whisper came along "Let's Go!" and Zowey! how we chased them.

You remember when it was all over, you wondered how in the world you ever lived through it all, and carefully felt yourself over to make sure you were not wounded!

You bet you remember it all, and how when you came home, everyone invited you to pink tea parties, and wanted you to tell them how come! And you couldn't begin to tell the story.

Well follows the "Veterans of Foreign Wars" is bringing "Powder River" to the Grand theater on Thursday and Friday, March 1 and 2, especially so that you can recall those old days in France, and bring your mother, sister, brother, sweetheart, father or wife, and show them just what you wanted to tell them—but couldn't. Every division that saw real service in France is shown in actual action against the Germans. Our four biggest battles—Cantigny, St. Mihiel, Chateau Thierry, Salient and the Argonne, are complete in every detail, from the time the first shell was fired, to the capturing of the objective.
